Mac OS X 10.10.5 or later

PC: Windows 7 or later

* Fees may apply. Contact your wireless provider for more information.

Environmental Standards

Operating ambient temperature: 32° to 95° F (0° to 35° C)

Nonoperating temperature: -4° to 113° F (-20° to 45° C)

Relative humidity: 5% to 95% noncondensing

Operating altitude: tested up to 10,000 feet (3000 m)

iPhone SE is designed with the following environmental standards in mind:

Arsenic-free display glass

Mercury-free batteries and display

Brominated flame retardant–free PVC liner

Beryllium-free

Recyclable aluminum enclosure

Features

Design. A beloved design. Now with more to love.

iPhone SE features a stunning 4-inch Retina display with Multi-Touch. Crafted from beveled aluminum and glass, it's the most durable iPhone ever. And it's surprisingly compact, designed to fit comfortably in your hand. Inside, the Touch ID sensor provides a secure way to unlock your device and pay. And matte-finish antenna bands ensure reliable performance.

Technology. The most powerful 4-inch phone ever.

The A9 chip in iPhone SE is the 64-bit desktop-class chip found in iPhone 6s and iPad Pro. It delivers console-class graphics and lightning-fast app launches. And it brings you spectacular speed and power while maximizing battery life. Advanced camera technologies like Live Photos and 4K video recording are also packed into iPhone SE.

Camera. The only camera you'll ever need.

With a 12-megapixel camera, you can shoot 4K video and slo-mo HD video. And capture Live Photos. That includes shooting your favorite moments in burst mode. Plus, the front camera has the resolution of 1080p HD video.

FaceTime HD camera with Retina flash. Capture more than a selfie.

Live Photos bring your still photos to life with motion and sound. Smooth touch and hold anywhere on the screen activates the 3D Touch capability. Take a panoramic shot and share it was taken, so your friends can relive the moment.

FaceTime HD camera with Retina flash. Capture more than a selfie.

iCloud Photo Library. All your photos and videos, always and everywhere.

iCloud Photo Library stores every photo and video you take, and lets you get to-date on all your devices. So the photos you take on your iPhone automatically appear on your Mac, iPad, iPod touch, Apple TV, and iCloud.com.

Touch ID. Advanced security. Right at your fingertip.

Touch ID makes unlocking your iPhone SE and making purchases the most secure and convenient experience you've had.

Apple Pay. Go easier, more secure with your iPhone.

Touch ID isn't just for unlocking your iPhone SE. It's also the easiest way to pay with Apple Pay. Just hold your finger on the Home button and place your iPhone near a contactless reader. Touch ID confirms it's you, and you're done. Because your card details are never stored on your device or shared with merchants.

Apple Pay. Now in 72 and 81 countries.

Browse the web, download apps and make purchases with Apple Pay in 72 countries. Use it with your iTunes account in 81 countries. Apple Pay is also available in more than 1,000 banks around the world. And it's coming for high-speed transit in Beijing, London, Moscow, Osaka, Paris, Shanghai and Singapore. Apple Pay is the most secure and private way to pay.

iOS. It's why there's nothing else like an iPhone.

With an easy to use interface, powerful apps, and the world's largest app ecosystem, iPhone and its mobile operating system and the foundation for all that you do. Everything works beautifully on your iPhone, as seen in these features and apps.

Apps that help you do more throughout the day.

Apple Maps provides a wealth of essential apps right out of the box, including Maps, which helps you get where you're going with ease. Music makes it easy to access the music you love and discover new favorites. Safari is the fastest way to surf the web. And FaceTime over video calls, so you can see and talk to friends and family on their iPhone, iPad, iPod touch, or Mac.

Get all the information you need.

Siri is your personal assistant, helping you do more than ever before. Ask Siri to send a message, search the web, get directions, and more. Siri even knows your sports teams, so you can ask Siri to search your phone library to find just the photos you want.

Tech Specs

Capacity

32GB

128GB

Processor

A9 chip with 64-bit architecture

Embedded M9 motion coprocessor

Display
